NEBRASKA ACADEMY OF  
FAMILY PHYSICIANS

***The Nebraska Academy of Family Physicians exists to promote, support, and serve our members as they strive to improve the health of all Nebraskans.***

With more than 1,300 members, The Nebraska Academy of Family Physicians (NAFP) represents family physicians in Nebraska. Family physicians offer the largest single primary care specialty in the state. Family Physicians practice in all sizes of communities throughout Nebraska. Family Physicians can care for approximately 90% of the problems their patients present to them due to their broad scope of training. Today, Family Physicians provide more care for America's underserved and rural populations than any other medical specialty. Family medicine's cornerstone is an ongoing, personal patient-physician relationship focused on integrated care.
